Richard Yun

TECHNICAL SKILLS

❖ **Strong**
JavaScript (ES5/ES6), HTML5, CSS3, React.js, jQuery, Agile Methodology, OOP, AJAX, APIs

❖ **Experienced**
MySQL, PHP, Bootstrap, Flexbox, UX / UI, Node.js, Express, NPM

❖ **Tools**
GitHub, Git, VS Code, Chrome Developer Tools, Babel, MeisterTask, Postman, Figma, DB Designer, Slack, AWS

PROFESSIONAL EXPERIENCE

Full Stack Web Developer | University of California – Irvine & LFZ Partnership | 2019 – Present | Credit Page

- Created desktop/**mobile responsive**, two-interface shift-scheduling app for bus drivers and administrative staff
- Implemented **React.js**, **JSX**, **PHP**, **Fetch**, **CSS**, **Bootstrap** to give users ability to view/edit schedules, request/accept shift changes and give administrators ability to create/update/auto-populate routes, schedules, and shifts
- Constructed **design concepts** utlizing Figma (**wire frames**) and adjusted designs to address client's **user interface (UI)**, **user experience (UX)**, and technical concerns
- Devised **database schemas** and implemented code to store/access data in a **MySQL** database
- Adopted **Agile methodology** with ideation, **stand-ups** and **sprints** to achieve an **MVP**, add features, and fix bugs
- Communicated progress to the team and project/product managers using MeisterTask (**task management**)
- Mediated meetings with client to demonstrate the new application, discuss project timelines, plan possible new features, and address any technical concerns regarding the outdated system

Marketing and Production Manager | Ellison Apparel | 2018 – 2019

- Managed overseas production, communicating with multiple manufacturers regarding product logistics
- Oversaw trade show marketing/sales in five states, handling logistics of employee travel and client appointments

Business Owner - Manager | PieNation | 2014 – 2018

- Spearheaded design/construction of new business while allocating funds and maintaining budget
- Interviewed, trained, and managed all employees in multiple positions/roles

APPLICATIONS DEVELOPED

Educators Management Application | GitHub

- Content Management System (**CMS**) developed to store, retrieve, update, and delete student records
- Implemented **HTML5**, **CSS3**, and **React.js** to create a client-based **UI** for accessing the student grade table
- Utilized **Postman** to test calls to the server, as well as verifying **JSON** string objects
- Integrated **AJAX** calls to server using **Node.js** to retrieve and edit/update data

Cowboy Bebop Memory Match | GitHub

- Cowboy Bebop themed card-matching memory game
- Implemented **HTML5**, **CSS3**, and **Flexbox** to design a **mobile responsive** layout of cards
- Utilized **JavaScript** and **jQuery** for card-flipping mechanisms, matching rules, and win conditions

EDUCATION

❖ **University of California, San Diego** | La Jolla, CA
B.A. of Psychology

❖ **LearningFuze** | Irvine, CA
Web Development Program (700+ hours total)
